Storage Wall

Customise your Storage Wall

In this brochure we have provided some inspiration for the look and feel you can achieve with our Storage Wall range.

Our designers work closely with suppliers and architects to keep on top of the latest furniture trends. So, with each Storage Wall design we have included a carefully curated palette of colour and/or wood finishes.

If you're trying to match an existing scheme – or simply want to look at a wider range of options – our friendly team are happy to offer their advice.

We offer a range of lock options, from mechanical to smart. For more information, standard carcass options and costings, speak to us.

Your vision

It's important that your workspace looks good, but if it doesn't function well you won't achieve your goals. You need a smart space that makes communication and collaboration easy; an environment that brings people together and inspires them to do their best work. You need furniture and storage that supports your vision.

About us

We design, manufacture and supply contemporary workspace furniture. We're best known for our smart storage, incorporating the latest locking technology. But what makes us unique is our tailor-made approach to design, build and installation. We understand that every client and workplace is different, and we'll support you throughout the process.
