Oxford House

The Client

Oxford House, based in leafy Finsbury Park, offers private, secure offices, collaborative spaces, meeting rooms and a serviced reception. Oxford House boasts an ecosystem of affordable spaces for consultants, entrepreneurs, and businesses. Office spaces range from 1 to 50-person occupancy with features such as vaulted ceilings, park views and an abundance of natural light.

The Challenge

Oxford House offers flexible serviced office spaces to a whole range of different clients and business types. The need for high-end, flexible and efficient facilities are imperative to the smooth running of the business, as is full visibility around what facilities are being used by what client and when.

Your Workspace was able to offer Oxford House a solution that involved the integration of smart technologies that would provide the premises with the agile and flexible storage facilities needed.

The Look

Our client wanted a smart and modern finish to fit seamlessly into their environment so chose a Barcelona Walnut finish for their Simplicity smart lockers. This was really affective and provided a stark contrast against the black, white and grey mosaic wall tiles that surrounded the lockers.

The Outcome

Your Workspace installed over 50 Simplicity smart lockers to provide Oxford House with a multi-functional and flexible storage system for their clients' shower facilities. We installed different sized locker doors and utilised all of the vertical wall space available.

Simplicity smart lockers can be managed remotely, and lockers can be allocated according to the needs of the client. Lockers can be allocated on a daily, weekly, monthly or permanent basis, or according to their 'tenancy agreement'.

With no geographical boundaries, clients can access a Simplicity smart locker at other Oxford House locations all via the free to download smart phone app or with their building access card. Management teams now have full visibility around the facilities usage so that they can space plan and invoice clients accordingly.

Quote - Daniel Corney, Director, Your Workspace:

"It was a pleasure to be able to work with Oxford House to help them transform their serviced office facilities to enhance their clients' experience. Our award-winning Simplicity smart lockers are helping to bring people back to the office and provide the flexibility needed in todays working world".
