

your workspace

Your Workpod

Revolutionise your workspace.

Pods of **Productivity.**

Boost focus. Maximise efficiency. Elevate comfort.

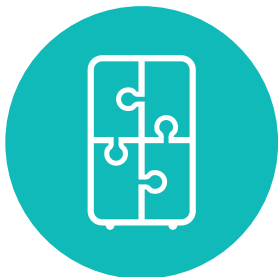

Welcome to the **evolution of workspaces.**

Our work pods are tailored for the dynamic needs of the modern workplace.

Whether you're seeking a focused solo retreat or a collaborative hub for team synergy, our pods seamlessly adapt to your requirements.

Customisable and designed for the hybrid work era, our pods redefine versatility, making them the perfect solution for your evolving office landscape.

Modular Design

Our modular design enables easy component replacement and reconfiguration when required.

98% Recyclable

A sustainable, eco-friendly design that is 98% recyclable at end-of-life.

DDA Compliant

Also available as an accessible booth, adhering to the standards set by the Disability Discrimination Act (DDA).

Soundproof

Eco-conscious, flame-retardant, sound absorbing high-density cotton panels are used to deliver a soundproof pod to a performance of

31 decibels*.

Ventilation

A continuous flow of fresh, filtered air ensures optimal air quality within the pod, promoting comfort and productivity while maintaining a healthy and oxygen-rich atmosphere.

Tempered Glass

Equipped with tempered glass, providing a durable and resilient surface that enhances safety and also aids soundproofing.

Variety of Colours

Available in a range of standard colours, or custom RAL colours on request.

Space Saving

The streamlined design offers balance between privacy and openness, making Your Workpod an ideal choice for maximising spatial efficiency in contemporary work environments.

Easy to Move

Designed for maximum flexibility, Your Workpod sits on super-strong, liftable castors enabling easy mobility and effortless relocation within any workspace.

*based on Your Workpod Solo.

Soundproof to create a focused workspace.

A soundproof pod to a performance of

31 decibels*.

*based on Your Workpod Solo.

Motion Sensors

Automatic, motion detecting lighting illuminates the pod on occupancy, providing user convenience and promoting energy efficiency by activating lights only when needed.

Height Adjustable Desks

The ergonomic design promotes comfort and flexibility, as users can adjust the height of the desk between sitting and standing positions to adapt to their preferred work styles.

Ambient Lighting

Adjustable interior lighting creates a conducive atmosphere for focused work, reducing eye strain and enhancing overall comfort.

Customisable

Can be personalised with graphics and vinyl wraps, offering a creative canvas to align with the brand identity or enhance workplace aesthetics.

Quality Interior Decor

Features acoustic wall panels and Milliken carpet tiles, adding a touch of sophistication and professional aesthetics to the workspace.

Self-Closing Door

A soft, self-closing door for seamless and quiet access, ensuring privacy with a touch of convenience.

A clear plastic water bottle with a blue cap stands upright in a lush green field. The bottle is partially filled with water and has some condensation on its surface. The background shows rolling green hills under a blue sky with scattered white clouds.

Interior acoustics made from **recycled** plastic bottles.

An **eco-conscious** design.
Your Workpod has an estimated 25-year life span,
and can be ultimately recycled at end of life.

Designed with **sustainability** and the **environment** in mind.

The interior design of Your Workpod is environmentally conscious, featuring acoustic panels crafted from recycled plastic bottles.

This sustainable choice not only enhances the acoustic environment, but also contributes to a reduced ecological footprint, aligning with eco-friendly practices in the workplace.

Overall, integrating recycled materials in the workplace aligns with eco-friendly practices, enhancing both corporate social responsibility and the overall well-being of our planet.

Your Workpod Solo.

A sleek and compact solo work pod. A personal sanctuary for unparalleled focus.
